

Peyman Eskandari

Front-End developer and UI Designer

I am a Front-End developer and UI designer with industry experience building websites and large-scale web applications. I'm passionate about creating powerful products using Vue.js, Sass, Laravel and Wordpress.

WORK EXPERIENCE

YasnaTeam

Tehran, Iran

July 2018 Until now

Senior UI Designer & Front-end Developer

- Lead Front-End team of 3 to develop YasnaWeb which is a CMS to create multiple projects in various scales.
- Creating UI Generator which is a tool for making a better and consistent experience for our clients. This tool changed the process of making projects for our clients by options like CLI, new Design System and modular development of the core.
- Design and Implementing a new Design System to build faster products on clients needs.
- Product Manager of YasnaTeam's main product called YasnaWeb. I'm making sure that all of the Product Owner's requests are full and well implemented in the system.

Freelancer

August 2012 to July 2018

UI Designer and Web Developer

- Created standard themes and plugins for the client with Wordpress.
- Designed modern user interfaces to cover all of the client's needs with Photoshop and Sketch App.
- Converted UI to fast and usable HTML, CSS and JavaScript files using Gulp.js and Sass.
- Created a fast and trusted back-end core with Laravel based on a modular system to build better and useful products.

Poostechin ltd

November 2013 to March 2016

UI Designer and Web Developer

- Led a team of 4 to create beautiful websites using Wordpress. I made sure that all of the client needs were provided and the resulting theme was safe, fast and standard.
